The scenery is of a high ortory of his own marvelous powers uttered during the action of the play, he found enough material for a similar talk delivered confidentially to the audience with the curtain lowered in the rear. Mr. Quiller said: "As he appeared before the large and distinguished audience, it was apparent that the eminent sleuth hound was embarrassed. Nervously biting his nails and leaning against the curtain for support, the master mind collected his thoughts sufficiently to thank the audience, on behalf of city. It is a gem in its way, and shows cattle in deep grass, with trees in the background. It is delicious in the quality of color. Vincent Nowottny, of Cincinnati, shows one picture, a landscape, showing a hill crowned with trees. "Moonlight on the Whitewater" is a picture by J. Otis Adams, showing a true rendition of a difficult subject, that of painting moonlight out of the ordinary conventional method of gray, blue and white. The effect of the moon on the rippling waters makes the focus of the picture. Another picture of moonlight is by Otto Stark, called "Nocturn; Electric Light." The artist stood beneath an electric light and painted a street view, which is rich in color and out of the ordinary. The most striking of three pictures by Mr. Fred O. Sylvester, of St. Louis, is called "Evening." which is noticeable for its irridescent color portrait as painted by himself, with a Charles Francis Browne has a delightful picture on exhibition called "Camp Kitchn," showing the artist's summer home on Rock river, Illinois, the moonlight effects being the chief charm. Bert Phillips, of Taos, N. M., shows three Indian pictures. Another picture on the same line is by E. A. Burbank, of Chicago, the latter having gained an enviable reputation as a painter of Indians. Edmund H. Osthaus, of Toledo, has two animal pictures in the cel-

really reckless woman is the one who braves Nature day after day, by neglect of the health of the delicate womanly organs. "Crime and punishment blossom on one stem" says Emerson. When the cycle of self-neglect is complete it includes the pains and sufferings which are the inevitable penalties inflicted by outraged Nature. The drain which today is counted an inconvenience, becomes in succeeding days a horrible and offensive stigma. The passing depression of an hour grows into a permanent melancholy.

The timely use of Dr. Pierce's Favorite Prescription will save young women from suffering, as it will cure those who through neglect have become martyrs after marriage. No woman who suffers with backache, pain in the side, bearingdown pains, debilitating drains, ulceration or inflammation, should delay another day the use of "Favorite Prescription." Its use helps every woman and heals ninety-eight per cent. of all who give it a fair trial. It contains no opium,

cocaine or other narcotic. "I was tempted to try your medicines after seeing the effect upon my mother," writes Mrs. Flora Arn, of Dallas, Jackson Co., Mo. At an early stage of married life I was greatly bothered with painful periods, also a trouble-some drain which rendered me very weak and unfit for work of any kind. I became so thin there was nothing left of me but skin and bone. My husband became alarmed and got me a bottle of 'Favorite Prescription.' After he saw the wonderful effects of that one he got me two more, and after I used those up ther was no more pain, and I began to gain in flesh very rapidly. I believe I weigh twice as much as I did then, and can do all of my work. I
